

# FORESHADOWS

THE GHOSTS OF ZERO

FOR IMMEDIATE RELEASE

## NEW SCI-FI ANTHOLOGY COMBINES GENRE-BLENDING MUSIC, ART, AND FICTION TO FORESHADOW THE GRITTY, HYBRID WORLD OF TOMORROW

*Foreshadows: The Ghosts of Zero is a 19-story illustrated anthology of dark science fiction intertwined with a 19-track album of songs and soundtrack music, created collaboratively by a veritable shadow gallery of speculative fiction authors and musicians.*

**Woodbridge Township, NJ – March 06, 2012** – The Very Us Artists (a consortium of musicians, authors, and visual artists) has partnered with indie publisher Blindsided Books to release *Foreshadows: The Ghosts of Zero*, an experimental combination book + CD. This partnership has produced an anthology of 19 new short stories, each paired with a track of original music. Contributing authors feature **Ed Greenwood**, **Robert J. Randisi**, and **Ari Marmell**, while the roster of musicians includes **Gene Pritsker**, **Joshua Wentz**, and **Bilian**.

The book itself features a foreword by **C.S. Friedman**, while digital painter **Michael Komarck** provides a glimpse into the world of *Foreshadows* through the book's cover artwork. In addition, **Talon Dunning** spotlights each story + track with an illustration of cyber noir.

*Foreshadows: The Ghosts of Zero* is available as both a physical book + CD and as an e-book, which includes the soundtrack in high-quality MP3 form. As neither traditional publishing nor standard music distribution avenues are accustomed to this sort of multimedia product, *Foreshadows* was Kickstarter-funded and is being sold primarily through its own website, with the e-book being distributed by Baen Publishing Enterprises.

Purchasers of the physical book + CD are granted exclusive bonus content, including over two hours of alternate and expanded versions of the music. A portion of the profits from these sales is being donated to The Hunger Project, a global non-profit organization working to empower millions of people each year to achieve a brighter future for themselves and their families.
